

Welcome to a **confident new world** of clinical trial intelligence that's **exceptionally faster** than doing it yourself.

Introducing our new affordable, one-stop service.

Visit www.evaluatepharma.com/clinical to request a demo today.

Tired of mining your own clinical trial data from public sites?

We do all the work so you don't have to.

- Updated daily
- Quick and precise access to full records of ClinicalTrials.gov*, EudraCT* and Japanese clinical trials data source
- Linked to company, product, therapeutic area, indication, sales and R&D pipeline
- User-friendly views with easy exportability to Excel
- Customized report views with filters
- Budget friendly subscription rates
- Clearly identify commercial trials
- Create unique email alerts highlighting what's changed
- Benchmark trial design with over 130+ searchable fields
- Monitor recruiting status by site and identify sites to run trials
- Analyze terminated trials and understand why they failed
- Identify principal investigators and key opinion leaders in your target area
- Evaluate the latest trial results in context with press releases, news, commentary and analysis from our own EP Vantage®

ClinicalTrials.gov

Number of Trials
120,000+

Sources
20,000+

Countries
175+ countries

Trial Investigators
99,000+

Mapped to:
Commercial Companies
3,300+

Indications
650+

Searchable Fields
137

EudraCT

Number of Trials
36,000+ Country Level Trials
16,000+ Master Trials
(7,500+ Trials mapped to NCTID's)

Sources
7,000+

Countries
30 EU & EEA countries

Mapped to:
Commercial Companies
840+

Indications
480+

Searchable Fields
170

Unique Fields for Analysis

Commercial trial filter
EU enrollment by country
First submission (new trials)
Rare disease (orphan) indications
Technology for investigational drug (e.g. biologic, gene therapy)
Pharmaceutical form (e.g. transdermal patch)

Trial coverage ex-US

EU **31,500+ trials**
Japan **2,500+ trials**

Japanese clinical trials data source*

Number of Trials
800+

Sources
85+

Indications
300+

Searchable Fields
38

* To be released Spring 2012

- Identify focus by therapy area and indication and see in which countries trials are being run to analyze clinical trial strategy
- Track your competitors by company, therapy area, indication, pharma class and country
- Track and benchmark the clinical trial landscape faster with integrated, standardized clinical trial data linked to company, indication, therapy area and R&D pipeline
- Create formatted reports on-the-fly and export for ready-to-go work deliverables
- Access investigator profiles including contact details

Key benefits include:

- No more data mining
- One-stop shop
- Data you can trust
- Speed and reliability
- Easy to use, proactive alerts
- Achieve higher quality work
- Massive productivity gain
- More time for more projects
- Confident decision-making
- Expert customer support

To see how access to **ClinicalTrials.gov, Eudra CT**
and **Japanese clinical trial** data can improve your
clinical trial intelligence **call for a demo today!**
